Claims 1-87 are presented for examination.

Claims 1-87 are rejected under 35 U.S.C. 103 as being unpatentable over Dong et al., Patrick et al. and Ayer et al. for the reasons set forth on pages 2-3 of the office action of November 8, 2001.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality to the ascending release rate of the claimed formulation. The allegation is not well taken. The full article of Patrick reference teaches the ascending release form for methylphenidate. The determination of proper polymers is considered to be within the skill of the art. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, claims 1-87 are properly rejected under 35 U.S.C. 103.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
